

6516206049.txt

I am writing in support of XM Radio's traffic and weather service. Please reject petition 04-160. I am a paying subscriber to xm radio and I feel that my first ammendment rights to lawfully hear what I choose would be greatly impeded by the NAB's attempt to stifle competition. Further, the service provided by xm radio is unique and greatly benefits me and many others. The detailed traffic and weather reports benefit all by helping to reduce traffic and provide valuable warnings about serious weather events.

Thank you
